

**The California Department of
Health Services, Food & Drug
Branch - Food Safety Education
and Training Unit presents:**

**"Sanitation and Good
Manufacturing Practices (GMP)
Training in Vietnamese"**

A One Day Training Course

PURPOSE:

- This one-day course is completely in Vietnamese and is specifically designed for food processors that have received a limited amount of specialized sanitation training. Firms that have received a warning letter from FDA or have significant GMP deviations noted during an inspection of their facility, would benefit from this course.
- Provides assistance to the food industry in complying with GMP regulations.
- Explains current policy regarding GMPs and food.

WHO SHOULD ATTEND:

- Food handlers, food processing line workers, sanitation/plant hygiene supervisors, QA/QC personnel, production managers/supervisors wanting assistance in complying with GMP regulation (21 CFR Part 110).

COURSE CONTENT:

- Series of lectures in Vietnamese covering sanitation and GMP issues for a broad variety of food product types (i.e. processed foods, produce) & classroom discussion.
- Lectures on sanitation monitoring & classroom discussion.
- One-on-one assistance.

WHAT TO EXPECT:

Course participants will receive a folder containing the graphics, text of the lectures, and a certificate of completion.

COURSE DATE AND LOCATION:

HURRY: The course is on a first come, first served basis. Your registration is **due by** April 1, 2003. Please register using the attached form.
